***CLEAN & SHINE AT THE SAME TIME without WATER!!!***

*"Thank You Ma'am!"*

**Say Goodbye to Buckets, Hoses, Detergents, Sponges, Towels ...**

**... Say Hello to *WhamBAM* Spray Cleaner, Polish and Protectant!**

*WhamBAM* is a specially formulated cleansing and polishing agent that contains no waxes, silicones, teflon, petroleum distillates, abrasives, or harmful additives to damage the paint chrome, lexan, fiberglass, and leather on your vehicle.

*WhamBAM* combines the advantages of a superior protective finish of a wax job and rejuvenation process of a polisher.

*WhamBAM* can be directly applied to the Dirty surface of your Bike or Car!

This is a two step process:

Step 1 Cleans the surface with ESP cleansing agents that emulsify and encapsulate the surface dirt, bugs, grease, grime, bird droppings, tree sap, road tar, and lifts the debris for the surface.

Step 2 Protects the surface with a unique blend of polymers that provides a layer of protection that resists scratches, swirls, finger prints and provides a brilliant wet shine on the painted surfaces, chrome, & windshields.

In extreme conditions you can rinse your vehicle off before you apply *WhamBAM* because water will not diminish its performance.

Directions for use:

1. Shake Well, Spray on applicator wipe area to be cleaned or on an area of your vehicle
2. While still wet use the polishing cloth to buff to a showroom shine

Great for New finishes – *WhamBAM* will give you that showroom shine long after the newness wears off. *WhamBAM* fills in minor **scratches and swirls** and will keep your vehicle cleaner longer do to its **Anti-Static Properties!**
